Securing funds to support the Breast Cancer Center at the Memorial Cancer Institute and to better serve its patients and families through the Memorial Foundation.

3329 Johnson Street

October 1, 2022

The Pink Angels of Memorial Hospital Foundation is hosting their Annual **Touch of Pink Party to benefit patients of the Memorial Breast Cancer Center. The event this year will take place on Thursday, December 8, 2022 at the Bahia Mar, Fort Lauderdale.** We are asking consider supporting to be a part of this important event as an in-kind sponsor. All proceeds will benefit the Pink Angels Fund of the Memorial Foundation.

The Pink Angels organization was founded in 2006 by a group of impassioned women, many of which were breast cancer patients of Memorial Breast Cancer Center, with the goal of educating the women in our community on the benefits of leading a healthy lifestyle and assisting those undergoing cancer treatment who may not be able to afford the products and services of the Image Recovery Center, a multidisciplinary center located at Memorial Hospital West which carries wigs, prosthetics and beauty products sensitive to the needs of chemotherapy and radiation patients. The funds raised are used directly to help breast cancer patients and their families through programs and services including nutrition, IVF Assistance, education and awareness, wigs and prosthetic garments and other support services. The Pink Angels have also committed to raise \$500,000 in support of the new Memorial Cancer Institute building, designed to benefit the care and experiential support for cancer patients in South Florida.

The Memorial Foundation is a 501(c)3 organization dedicated to providing philanthropic support to Memorial Healthcare System, whose mission is to provide safe, quality, cost-effective, patient- and family-centered care, regardless of one's ability to pay, with the goal of improving the health of the community it serves. This is a great opportunity to help our efforts to support the women in our community undergoing the devastating effects of a breast cancer diagnosis and its aftermath, chemotherapy and radiation treatments. Please do not hesitate to contact me with any questions.

Sincerely,

Babette Kosar
Director of Development, Memorial Cancer Institute
